Join the Campaign for Healthier Kids

Poor eating habits and overweight threaten the health and intellectual development of our nation's children. Nearly 25 percent of children are now overweight, with more than 15 percent clinically obese. If the trend continues, this generation of school age children will be the first in American history to have a shorter life expectancy than their parents.

Health e-Lunch Kids strive to help parents teach their children good dietary habits. We believe in involving children in the selection of their own lunches in a "structured choice" environment, where all menu items are healthy. Web content helps teach nutrition basics and the importance of healthful eating, in a way that is rewarding and fun for today's e-loving kids.

Promoting healthy eating that lasts children's whole lives long.

Health e-Lunch Kids

You Pick. We Pack and Deliver!

Give school-age children a tasty, nutritious lunch conveniently. Make it a lunch from Health e-Lunch Kids - the online lunch ordering and delivery service that makes lunch making healthy, fast and fun.

Children and parents plan lunches together choosing from a menu of healthy items on our website. Health e-Lunch Kids prepares each day's order, packs it in a fun, kid-friendly, educational box and delivers it directly to school or day camp.

Our Mission

Health e-Lunch Kids' goal is to help parents easily provide the highest quality nutrition to their children, so they can achieve their full intellectual and physical potential. We strive to support parents as they teach their children about healthful choices - building good dietary habits that can last a lifetime.

Do You Find Yourself Asking These Questions?

- How can I continually make healthy lunches when I have so little time?
- How can I ensure my child eats a varied diet?
- How can I persuade my fussy eater to eat fruit and vegetables?

We Take the Stress & Guess Out of Menu Planning!

Ease your lunch-making worries, eliminate the scramble to pack a daily lunch or pick up something on the drive to school. Now, you and your child can plan weekly meals together using our convenient online ordering system at any time of day that works for you.

- Our wide selection gives your kids a variety of healthy choices.
- Involving your children in the choice helps assure you they will eat their lunch. Our bright, interesting packaging helps too!
- You know your children are eating well. Our menus are prepared by a registered child nutritionist and exceed federal nutritional guidelines.
- You save time, and the cost per meal is about the same as if you shopped, prepared and packed it all yourself.
